

Toto

Audition Piece

(Toto has no words to say, nor do we have the puppet to audition with! His puppeteer will be visible throughout the show though and needs to convey Toto's acting through mime – but he can vocalise with a few doggie noises to emote!)

Please show us how:

1. Toto is a little nervous coming out of the house. But with a bit of coaxing he grows in confidence and is very happy!
(An audition assistant will be on hand to provide coaxing during your audition)
2. Toto knows that Dorothy is trapped in the castle by the Wicked Witch and tells the others (in this case, the panel) that they need to rescue her.
3. Toto is quizzical, having heard a strange noise behind a curtain. He crosses over and tries to draw people's attention to what is on the other side.

There's a good boy!
